# Bag-making machines

Lines and machines for paper and plastic bags — 9 machines

## HOLWEG RS25

paper bag line

**Year 2006**

Bag-making line for sachet-type paper bags — with side gussets, film window and longitudinal gluing. Runs paper and laminated material; includes unwinder, dryer and conveyor output of finished bags.

Manufacturer: HOLWEG, Molsheim (France)

Model: RS25

Bag type: Flat satchel paper bags

Year of manufacture: 2006

Printing section: Flexo 6 colours, chamber doctor blade system

Print width: 900 mm

Max speed: 1000 bags/min

**More details:**

## HOLWEG RS26

paper bag line

**Year 2003**

Holweg RS26 bag-making line for flat-bottom paper bags. The line is equipped with a Fischer und Krecke 4-colour printing section. Includes reel unwinder, bag forming and gluing, and finished-bag output. The machine is on our floor and can be inspected in operation.

Manufacturer: HOLWEG, Molsheim (France)

Model: RS26

Bag type: Flat-bottom paper bags

Year of manufacture: 2003

Machine no.: 2003 / 12003

Printing section: Fischer und Krecke 4 colours

Material width: 900 mm

## Windmöller & Hölscher Triumph 3C

flat handle bag line

**1991, fully refurbished in 2023**

Windmöller & Hölscher Triumph 3C bag-making line, built in 1991 and completely refurbished in 2023. Produces square-bottom paper bags with flat handles, runs in 1-ply and 2-ply modes, fitted with slit bottom forming and a set of plates in various widths.

Manufacturer: Windmöller & Hölscher (Germany)

Model: Triumph 3C

Bag type: Square-bottom paper bags with flat handle

Year of manufacture: 1991, fully refurbished in 2023

Condition: Very good, completely refurbished in 2023

Handle unit: Flat handle unit installed

Operation modes: 1-ply and 2-ply

**More details:**

**[parshykovequipment.lovable.app/machine/triumph-3c](https://parshykovequipment.lovable.app/machine/triumph-3c)**

## Newlong 122T

bagging machine

**1986**

Newlong 122T bagging machine, built in 1986. Designed for producing square-bottom paper bags. The line includes a flexo printing section and a reel unwind. The machine is fully functional and ready for operation.

Manufacturer: Newlong (Japan)

Model: 122T

Bag type: Square-bottom paper bags

Year of manufacture: 1986

Condition: Ready for operation (used)

Functionality: Fully functional

**More details:**

**[parshykovequipment.lovable.app/machine/newlong-122t](https://parshykovequipment.lovable.app/machine/newlong-122t)**

## Tokyo Pack Paxter RB 28

paper bag making machine

**1980**

Tokyo Pack Paxter RB 28 paper bag making machine, built in 1980. Used for producing square-bottom paper bags. Used, in working condition, located at our plant.

Manufacturer: Tokyo Pack (Japan)

Model: Paxter RB 28

Bag type: Square-bottom paper bags

Year of manufacture: 1980

Condition: Used

Functionality: In working condition

**More details:** [parshykovequipment.lovable.app/machine/tokyopack-paxter-rb28](https://parshykovequipment.lovable.app/machine/tokyopack-paxter-rb28)

## Newlong RBF-35S

machine for paper bags with handle

**1987**

Newlong RBF-35S machine for paper bags with handle, built in 1987. Used, located at our plant.

Manufacturer: Newlong (Japan)

Model: RBF-35S

Machine type: Square-bottom paper bags with handle

Year of manufacture: 1987

Condition: Used

Reel width & diameter: 1050 mm, 1100 mm dia.

Paper weight: 80-125 g/m<sup>2</sup>

**More details:** [parshykovequipment.lovable.app/machine/newlong-rbf-35s](https://parshykovequipment.lovable.app/machine/newlong-rbf-35s)

## **Newlong 946T + 603**

paper bag line with flexo printing

**1987**

Complete industrial line for manufacturing paper bags and sacks with an integrated Uteco Onix 410 IL flexographic printing press. Main machine Newlong 946T + 603, built in 1987. Very good condition, installed and operating in production.

Manufacturer: Newlong (Japan)

Model: 946T + 603

Machine type: Paper bags with handle (SOS bags)

Year of manufacture: 1987

Serial number: 1190123

Condition: Used, very good condition, in production

Integrated printing press: Uteco Onix 410 IL

**More details:** [parshykovequipment.lovable.app/machine/newlong-946t-603](https://parshykovequipment.lovable.app/machine/newlong-946t-603)

## **SMR Stiegler ST-1/3 A 700W-L**

side-weld bag making machine

**2000**

High-speed industrial bag-making machine for producing side-welded plastic bags, including bread bags, bakery bags and other specialized packaging with perforation. Built in 2000, made in Germany.

Manufacturer: SMR Stiegler (Germany)

Model: ST-1/3 A 700W-L

Machine type: Side-weld bags (bread bags, bakery bags)

Year of manufacture: 2000

Serial number: 320700

Materials: LDPE, LLDPE, HDPE and PP films

Working width: approx. 750-900 mm

**More details:** [parshykovequipment.lovable.app/machine/stiegler-st-1-3](https://parshykovequipment.lovable.app/machine/stiegler-st-1-3)

Photo on request

## Windmöller & Hölscher Triumph 1

square-bottom bag machine

**1972, overhauled in 2009 (by Garant)**

Windmöller & Hölscher Triumph 1 machine for square-bottom (SOS) paper bags produced from reel, without handles. Built in 1972, modernised and completely overhauled by Garant in 2009. Three unwind stands allow the production of 3-ply bags. Equipped with a servo motor and photocell tracking, so bags can be made from pre-printed material.

Manufacturer: Windmöller & Hölscher (Germany)

Model: Triumph 1

Bag type: Square-bottom (SOS) paper bags, without handles

Year of manufacture: 1972

Modernisation: 2009, fully overhauled by Garant

Material feed: from reel, 3 unwind stands (3-ply bags)

Control: Servo motor, photocell (pre-printed material possible)

**More details:**

# Slitter rewinders

Slitting and rewinding of paper and film rolls — 3 machines

## Euromac TB 608

slitter rewinder

**1985**

Euromac TB 608 (TB 608 S SV 410 E) slitter rewinder, built in 1985. Machine for slitting and rewinding paper reels, complete with hydraulic power unit, spare shafts and slitting units.

Manufacturer: Euromac S.p.A., Villanova Monferrato (Italy)

Model: TB 608 (TB 608 S SV 410 E)

Machine type: Slitter rewinder

Year of manufacture: 1985

Serial number: 407

Condition: Used, in working order

**More details:**

[parshykovequipment.lovable.app/machine/euromac-tb608](https://parshykovequipment.lovable.app/machine/euromac-tb608)

## Goebel IMS slitter rewinder

1300 mm

**On request**

Industrial slitter rewinder by Goebel (Germany) with a maximum working width of 1300 mm. Unwind diameter up to 1150 mm, rewind diameter up to 800 mm.

Manufacturer: Goebel (Germany)

Machine type: Slitter rewinder

Working width: up to 1300 mm

Unwind diameter: up to 1150 mm

Rewind diameter: up to 800 mm

**More details:** [parshykovequipment.lovable.app/machine/goebel-slitter-2300](https://parshykovequipment.lovable.app/machine/goebel-slitter-2300)

## PSA Technology SFS-AR 1600

slitter rewriter

### On request

Slitter rewriter by PSA Technology GmbH (Germany), model SFS-AR 1600. Cutting width 1600 mm, unwind diameter up to 1200 mm, rewind diameter up to 1000 mm.

Manufacturer: PSA Technology GmbH (Germany)

Model: SFS-AR 1600

Machine type: Slitter rewriter

Cutting width: 1600 mm

Unwind diameter: up to 1200 mm

Rewind diameter: up to 1000 mm

### More details:

[parshykovequipment.lovable.app/machine/psa-sfs-ar-1600](https://parshykovequipment.lovable.app/machine/psa-sfs-ar-1600)

# Printing machines

Flexographic printing presses — 1 machines

## **SOMA FLEX MINI UV**

flexographic printing machine

**2004**

SOMA FLEX MINI UV central impression (CI) flexographic printing machine, built in 2004, 8 colours with UV curing. Used, in working condition.

Manufacturer: SOMA (Czech Republic)

Model: FLEX MINI UV

Machine type: Central impression (CI) flexographic printing machine

Year of manufacture: 2004

Condition: Used

Printing units / colours: 8

Max. printing width: 800 mm

**More details: [parshykovequipment.lovable.app/machine/soma-flex-mini-uv](https://parshykovequipment.lovable.app/machine/soma-flex-mini-uv)**
